

# CRF-220 Series

## Electrically Heated CO2 Flowmeter Regulator

### FEATURES

1. Forged brass body and chromed bonnet for maximum strength
2. This product is suitable for extensive and long-term use of carbon dioxide
3. With automatic temperature controller, it can stop heating when the degree is 60°C and restart when the degree is lower than 50°C to keep warm and prevent freezing
4. Cartridge heater and pressure reducing mechanism provide stabilized pressure and flow
5. 36V, 110V, and 220V are available
6. Adjust pressure by knob

### SPECIFICATION

Model	Gas	Flow Range	Heater Power	Cylinder Pressure (BAR)	Delivery Pressure (BAR)
CRF-220-220	CO2	25 (Lt./Min.)	220 VAC 210W	315 (BAR)	3.5 (BAR)
CRF-220-110	CO2	25 (Lt./Min.)	110 VAC 210W	315 (BAR)	3.5 (BAR)
CRF-220-36	CO2	25 (Lt./Min.)	36 VAC 210W	315 (BAR)	3.5 (BAR)
