

HK-05A

- ✚ Used for cutting suspender in ship building, bridges construction etc.
- ✚ As automatic cutting, it provides high quality of the cutting section.
- ✚ Compared with hand-cutting, this machine provides higher precision and better quality in the surface of the cutting without polishing.
- ✚ Without any polishing for cutting surface results from moving and welding the suspender.

Model No.	Fixed Mode	L*W*H	Supply Voltage	Mini Curve Radius	Cutting thickness	Cutting speed	Weight
HK-05A	Permanent magnet	360*710*233	AC220/50	/	5-30	Manual	10.5
